Welcome to week two of the 2025 MAKERS of Change Assistive Technology Challenge!

We had a great turnout to the Q&A Expert Panel, however, I noticed that many of the questions students asked were already addressed in either the [Challenge launch video](#) or the [Levi Therapy Session video](#). **PLEASE encourage your students to especially watch the Therapy Session video as that gives them actual footage of Levi's movements and his physical abilities.**

Instructors, please share this email with your students. Each link and attachment contain important information to guide your students through the process.
